

MUHAMMAD HAKEEMI BIN MOHD RIDZA

Seoul, South Korea | (82) 10-5937-8068 | hakeemiridza@gmail.com | [linkedin.com/in/hakeemiridza](https://www.linkedin.com/in/hakeemiridza) | github.com/keirara04

PROFESSIONAL SUMMARY

Computer Science student at Korea University specializing in full-stack web development and AI/LLM integration. Experienced in building and deploying production-ready web applications using React, Next.js, and Supabase. Passionate about scalable systems, automation, and real-world product development. Seeking a Software Engineering or Full-Stack Developer internship

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, Java, C, SQL, Assembly

Frontend: React, Next.js, Tailwind CSS

Backend: Node.js, REST APIs, Supabase (PostgreSQL)

Tools & Cloud Platforms: Git, Vercel, Cloudflare, Upstash Redis, n8n

Concepts: Full-Stack Development, AI/LLM Integration, CI/CD, Progressive Web Apps

TECHNICAL PROJECTS

ShelterLab | Full-Stack Campus Marketplace | shelterlab.shop | Next.js 16, React 19, Supabase, Groq LLM

- Designed and deployed a secure PWA marketplace supporting 10+ South Korean universities, utilizing (.ac.kr) email verification and 8-digit OTPs to ensure a verified student community
- Mastered Server Actions and Concurrent Rendering by skipping stable versions to work directly with Next.js 16 and React 19, optimizing state management and reducing client-side overhead
- Developed "LabCred," a proprietary trust-scoring algorithm that calculates user credibility in real-time based on transaction history and peer reviews (1–5 star ratings)
- Developed "LabGigs," a secondary service-based economy featuring a dedicated management dashboard with real-time state tracking and automated archiving to facilitate secure peer-to-peer campus service exchanges
- Integrated Groq LLM (Mixtral-8x7b) to provide real-time AI pricing suggestions across 20 categories, enhancing market fairness for student sellers
- Secured production environment against bot attacks by implementing sliding-window rate limits (e.g., 120 searches/min) via Upstash Redis and Cloudflare DNS management
- Implemented PIPA-compliant data protection, including 24-hour automatic account deletion on request and a 3-business-day dispute resolution SLA
- Engineered an automated administrative ecosystem using Brevo SMTP and Web Push API to handle transactional notifications and identity verification, reducing manual operational oversight by an estimated 70%

SEO Automation Pipeline | Contract Developer | n8n, AI Processing, API Integration

- Integrated OpenAI API and Perplexity AI via n8n to automate competitive market research, orchestrating 11+ technical integrations to reduce analysis time from 4 hours to under 5 minutes
- Architected multi-step automation workflows in n8n featuring conditional logic and error-handling to ensure 99% reliability across 11+ third-party technical integrations
- Built a lightweight frontend interface to trigger and monitor automation workflows

Interactive Collaborative Calendar System | Java, Python, SQL

- Designed a full-stack collaborative application featuring real-time data synchronization and a unique integrated Q&A module for user engagement.
- Architected a relational database in SQL to handle concurrent user sessions, ensuring data integrity across shared calendar events.
- Optimized backend communication between Python scripts and the Java interface to handle live updates with minimal latency.

EDUCATION

Korea University | Seoul, South Korea | Bachelor's in Computer Science and Engineering | 2024 – 2027

- Relevant Coursework: Data Structures, Operating Systems, Database Systems, Computer Architecture, Deep Learning, Artificial Intelligence and Computer Network
- Hackathon Competitor: PPMK Hackathon 2025 - collaborated to solve complex logic problems under time constraints

UniKL MIIT | Kuala Lumpur, Malaysia | 2021 – 2023

- Preparatory for South Korea University | CGPA: 3.93/4.00

LEADERSHIP & EXPERIENCE

Korea University Foreign Student Union | Media Manager | 2024 – present

- Spearheaded digital media strategy for a diverse international student body and analyzed engagement metrics to optimize outreach for campus-wide initiatives

Speaking Society Club | Vice President | 2024 – 2025

- Led and mentored 100+ members on public speaking and critical thinking while managing club logistics and budget oversight

AWARDS & LANGUAGES

Languages: Malay (Native), English (Fluent), Korean (TOPIK Level 4).

Awards: Top Performer (Pre-Korea Batch 13), 3.93 GPA Award.
